

AIRBUS

AIRBUS POLAND S.A.

QUALITY POLICY

The objective of AIRBUS POLAND S.A. is the effective and continuous improvement of the conducted activities and providing full satisfaction to our customers while assuring the profitability of the company as the necessary conditions for its stability and development.

To accomplish this objective we will actively strive to:

- deliver conforming products and services at first time,
- strengthen and develop our position on domestic and international market,
- achieve customer satisfaction and good relations with all of our partners,
- prepare for the future through innovations and development,
- assure favourable conditions for aeronautical safety,
- boost our competitiveness through successful integration and transformation,
- engage employees and increase their sense of self-esteem through personal growth,
- ensure we operate as a socially responsible organization.

In order to make the above objective a real one, we shall always proceed with a behavior based on the professional ethics, considering the commitment related to quality and continuous improvement as an integral part of the company's development strategy.

Effective Quality Management System established and maintained in AIRBUS POLAND S.A. complies with the requirements of the current ISO 9001, AQAP 2110, EN9100, EN9110 standards and is designed to ensure that all quality, company and regulatory requirements are achieved and regularly reviewed for effectiveness and continuing suitability.

By triggering the commitment of all AIRBUS POLAND S.A. employees and providing them with the means necessary to perform the most challenging tasks in an effective and efficient manner we will be able to stabilize and strengthen our position in the group of international aviation corporations and at the same time actively participate in the industrial and technological development of the Republic of Poland and European Union.
